### **Government Advice for Parents/ Carers**

**What should I do if my child or someone in my household has symptoms of coronavirus (COVID-19)?**

It's important that if your child (or anyone in their household) has any coronavirus (COVID-19) symptoms, they should not attend their nursery or childminder and should stay at home. You should arrange for them to get a test and tell your nursery or childminder the test results. This will help the NHS Test and Trace process. If

you have a positive test result, your household should remain at home and follow the Test and Trace self-isolation guidance.

## COVID-19 Symptoms

- A high temperature
- A new continuous cough
- A loss or change to their sense of smell or taste.

### What happens if another child at the same nursery or childminder tests positive for coronavirus (COVID-19)?

If your child has been in close contact with someone who has tested positive for coronavirus (COVID-19), you will be asked to make sure they isolate for 14 days. Other members of the household would only need to isolate if your child started developing symptoms. Anyone who has symptoms can get a test, including children under 5.

If there was a positive case for COVID-19 within nursery, children and staff would have to self-isolate for 14 days. Unfortunately, this would be at short notice as we have to take immediate action if we receive a positive test result. Parents will be informed via Facebook, our nursery school website and a letter sent via email.

### Guidance NHS Test and Trace: how it works

The government has provided an overview of the NHS Test and Trace service, including what happens if you test positive for coronavirus (COVID-19) or have had close contact with someone who has tested positive. Please follow the link below:
